The diagram shows a hand-drawn path on a grid background. The path is drawn with green crayon and consists of several segments: a horizontal segment at the top, a vertical segment on the left, a diagonal segment from the middle-left towards the bottom-right, and another horizontal segment at the bottom. Three small orange circles are placed at specific intersections or points along the path: one on the top horizontal segment, one on the left vertical segment, and one on the bottom horizontal segment.
